

## 5<sup>th</sup> Asia Pacific Pharmacovigilance Training Course

(Building Capacity in Pharmacovigilance)

Training Course hosted by  
Indian Pharmacopoeia Commission  
in collaboration with Uppsala Monitoring Centre, Sweden  
4<sup>th</sup> - 15<sup>th</sup> March 2019

### About the Course

Indian Pharmacopoeia Commission is hosting the 5<sup>th</sup> Asia Pacific Pharmacovigilance Training Course at Indian Pharmacopoeia Commission (IPC), Ghaziabad (Delhi - National Capital Region), India from 4<sup>th</sup>-15<sup>th</sup> March 2019 in collaboration with Uppsala Monitoring Centre, Sweden.

For the first time this highly informative training course is conducted at IPC, Ghaziabad, India, a WHO Collaborating Centre for Pharmacovigilance in public health programmes and regulatory services.

This course offers a programme to about 30 Pharmacovigilance Professionals each year. Since last four years this training course has taken place at JSS University, Mysuru in February 2015, January 2016, January 2017 & January 2018.

### Training Methodology

The course offers a creative, interactive and relevant sessions to ensure participants are actively engaged from the outset and implement it at their working environment.

The course uses a combination of instructions, group discussion, case studies, field visits which embeds the practical application of Pharmacovigilance in the participant and aimed at strengthening the performance of National Centres of WHO programme for Intentional Drug Monitoring.

### Course Benefits

The course helps participants to improve their capacity to bring about sustainable change in their countries. Issues related to burden of ADRs, communications, risk management and fund raising in Pharmacovigilance are covered.
